Professional Summary

Motivated and detail-oriented Computer Science Engineering student with hands-on experience in Java, Python, SQL, MySQL, and web development. Skilled in building web applications using Flask, developing data-driven solutions, and creating interactive Power BI dashboards for data visualization and analysis. Experienced in projects that involve recruitment management, web scraping, data cleaning. Strong problem-solving skills with a passion for Java development, data analytics, and continuous learning.

Education

Bachelor of Engineering in Computer Science Engineering — **Expected – 2027**
Hindusthan College of Technology, Salem, Tamil Nadu — *CGPA: 7.74/10*

Higher Secondary Education — **2021 – 2023**
Little Angels Higher Secondary School, Aniyapuram, Namakkal — *Percentage: 66.5%*

Technical Skills

Programming Languages	Java, Python, JavaScript, SQL, HTML, CSS
Frameworks	Spring Boot, React
Database	MySQL
Tools	Git, GitHub, Eclipse, VS Code, Power BI, Microsoft Excel
Libraries	BeautifulSoup, Requests, Pandas, Numpy

Technical Projects

Recruitment Management System — *Python — Flask — MySQL — HTML — CSS — JavaScript*

- Developed a full-stack recruitment management system for managing job postings, candidate registrations, applications, and interview scheduling.
- Designed RESTful backend functionality using Flask, integrated MySQL for data management, and built a responsive user interface using HTML, CSS, and JavaScript.

Web Scraping and Data Extraction — *Python — BeautifulSoup — Requests — Pandas — CSV*

- Built a web scraping application to extract structured data from websites and automatically store it in CSV format for further analysis.
- Performed data cleaning and preprocessing using Pandas to improve data quality and prepare datasets for analysis.

Interactive Power BI Dashboard — *Power BI — Excel — SQL — Data Visualization*

- Designed an interactive Power BI dashboard using charts, KPIs, slicers, filters, and drill-through reports for business insights.
- Performed data cleaning, transformation, and modeling using Excel and SQL to create meaningful visualizations for decision-making.

Certifications

- **Masterclass in Data Analytics** – NoviTech R&D Private Limited (Apr 2026 – Jun 2026)
- **Virtual Internship in Data Analytics** – CodeAlpha (Jun 2026 – Jul 2026)
- **Python Full Stack Workshop** – Bolt Academy (2026)

Achievements

- Successfully presented a technical paper at an inter-college technical symposium.
- Solved programming and algorithmic problems on LeetCode using Java.
- Developed multiple academic projects including a Recruitment Management System, Web Scraping application, and Power BI Dashboard.

Additional Information

Languages	English, Tamil
Interests	Data Analytics, Software Development, Backend Development, Open Source
